

**How are you today?
Enjoy your health & life!**

Not everyone have this luck!

OUR sister M.G. Dilrukshi Apsara in Sri Lanka suffers from kidney failure.

She is only 47 years old, wife and mother of 2 children.

Now she needs help every day. Only a kidney transplantation can save her life. A donor is found, but the surgery and after-treatment are costly.

EVERY donation matters! YOU can save HER life
